### University of Turin

Master's degree in Modern Languages and  
Comparative Literature

### University of Turin

Bachelor's degree in Dams,  
Television and New Media

### Université Paris 8

ERASMUS Scholarship

### Conservatory of Music of Turin

Violin Diploma

## SUMMARY

**Experienced web developer** with a demonstrated history in the Information Technology in the context of International and Governmental Organizations. Skilled in **Front-end interfaces** and **UI/UX design**.

## WORK EXPERIENCE

### Freelance (01/2022 - current)

#### *IT consultant / Web developer*

*External consultant at the JRC - European Commission  
Directorate for Sustainable Resources Food Security Unit – D5*

As an external consultant, I was instrumental in the development and continuous support of new platforms, adhering to the guidelines and requirements set by the European Commission. Additionally, I had the privilege of participating in high-level meetings with the Directorate-General for Agriculture and Rural Development, where I was able to offer significant technical contributions, enhancing the overall effectiveness and quality of our collaborative efforts.

### FINCONS Group (03/2015 – 12/2021)

#### *Front-end developer*

*External consultant at the JRC - European Commission  
Directorate for Sustainable Resources Food Security Unit – D5*

In my role, I was involved in developing dynamic interfaces for a diverse portfolio of web applications, including the FAS Database, LPIS Web Portal, GAEC Database, GEOGLAM Crop Monitor Partner Survey, and the ASAP Web Portal. My responsibilities spanned across various aspects of front-end development and user experience design. I created new layouts, optimized existing user interfaces, and conducted user testing to ensure intuitiveness and a high-quality user experience.

From a technical standpoint, I leveraged the most common and advanced front-end programming languages and techniques to craft new interfaces.

Moreover, I was responsible for maintaining and updating the web applications adhering to the guidelines provided by DIGIT pertaining to the official EC visual identity and web presence, including ECL.

### ENGINEERING Spa (03/2014 - 02/2015)

#### *Web developer*

*External consultant at the JRC - European Commission  
Directorate for Sustainable Resources Food Security Unit – D5*

I continued my previous activity, started on december 2012, related to the **GAEC database, by developing and improving new functionalities**. I collaborated also in several projects in matter of **graphics**, creation of **new templates** and design.

Main projects: GAEC (Good Agricultural and Environmental Condition database), FAS (Farm Advisory System) database, ASAP (Anomaly Hotspots of Agricultural Production), LPIS QA (Land Parcel Quality Assurance portal)

### JRC - European Commission (12/2012 - 11/2013)

#### *Trainee*

During my traineeship, I took on the responsibility of developing design specifications for the GAEC web application, leveraging HTML, CSS, JavaScript, and jQuery. This encompassed an array of tasks: search engine optimization, maintenance of style sheets, development and implementation of an intuitive graphical user interface, and rigorous usability testing. My role was integral in creating an optimized, user-friendly interface and conducting comprehensive evaluations to ensure the highest level of usability.

Main projects: GAEC web database, Ispra Open Day 2013, LPIS survey, Annual MARS Conference

### Freelance (03/2011 - 12/2019)

#### *IT consultant*

Occasional activities of **IT consulting, web development, GIS and remote sensing analysis** for Public Administration and private companies

Main activities:

- **Processing of cadastral data and P.R.G.** for the Municipality of Ghemme (NO), semi-automatic **digitalization of the local master plan**. Harmonization of the PRG with the cadastre.
- Detection of the potential Asbestos Roof with aerial orthophoto (20 cm - 50 cm pixel size) for the Municipality of Novara (NO), **visul inspection, identification and digitalization of asbestos roof using remote sensing spectral identification** technic.
- Development of a **web gis interface with open source components** for the consultation of layers available in the pre-existent spatial database of the Municipality of Novara (PostgreSQL + PostGIS)

### International Superior Academy of Music "L. Perosi" onlus (01/2007 - 11/2012)

#### *Public Relations officer*

I was involved in the **coordination of cultural events**, exhibits and concerts, as well as in the **production of press releases and web contents creation**.  
(<https://www.accademiaperosi.org>)

Main projects: Gromo Losa Palace Opening Ceremony, CantarSuonando! project, Musique Botanique project, Orchestra dei Talenti Musicali
